REGULAR SESSION · 1934-1935

THE CALIFORNIA SCHOOL OF FINE ARTS was founded by the San Francisco Art Association in 1874; in 1893 it was affiliated with the University of California. The School is now established in the splendid group of buildings recently completed on the new site at Chestnut and Jones streets, on the slope of Russian Hill overlooking the bay.

Formerly known as the Mark Hopkins Institute, the School occupied for many years the historic site on California Street, which, however, was finally sold, and the present property was purchased for the obvious advantages it offers.

It is the purpose of the Administration of the Art Association to make this School the center of a growing influence for art throughout California, to provide fundamental training that will foster the development of independently minded artists whose technical skill will enable them to give free and complete expression to their creative thought. The School desires to awaken in its students a realization of the important place of art in its application to the life of the community and to give them the benefit of progressive leadership in the art expression of our own times.

The 1934-1935 Session opens on Monday, August 20th.

ENROLLMENT AND INSTRUCTION

A four-year course in the study of the Fine Arts is offered to those students who desire complete training for professional work.

Students may enroll at any time. While no examination or previous instruction is required for the Fine Arts and professional courses of study, students who do not make reasonable progress in their work are not encouraged to remain in the School.

Satisfactory work done in other institutions of high standing will be recognized in so far as it meets the requirements of this School. Elementary work will be given to beginners in preparation for the life drawing and painting classes and other advanced courses of study.

The instruction is individual, as well as by lectures and informal talks to the class, and students are given every opportunity to advance as rapidly as is consistent with sound training. The instructors are present to give criticisms two or three times a week.

TEACHERS OF ART: The California School of Fine Arts is accredited by the State Board of Education, offering to qualified students the special secondary credential in art—issued by the Board of Education. This credential entitles the holder to teach the subjects of Art and Crafts in the Elementary, Intermediate and High Schools, and in Junior Colleges.

The complete course comprises four years of comprehensive and systematic study of the fine and applied arts, with required educational and academic subjects, and must be preceded by graduation from an accredited four-year High School with at least 15 units of grade C or better, including 8 recommended units.

As all work given in this School is essentially practical in character, students completing this course would be equally prepared to enter the professional fields of Fine Arts and Commercial Art.

(Write for further information regarding this course.)

TERMS FOR UNITS OF CREDIT: The School will evaluate work done by students in terms of units of credit according to the regulations governing the granting of special Credentials and Certificates of the Arts Type, issued by the Commission of Credentials of the State Board of Education. "A unit or semester-hour is one recitation or lecture hour per week of prepared work carried for a period of eighteen (18) weeks, or of three (3) hours of laboratory work per week carried for a period of eighteen (18) weeks. Prepared work presupposes an average of at least two full hours of study in preparation for each hour of lecture or recitation."

Students who desire credit for their work must sign a card to this effect at time of enrollment. A fee of two dollars is charged for the extra work this supervision entails.

The Faculty members have spent years of study in leading art schools of America and Europe. Their unquestioned ability as teachers insures competent direction of the student's work.

LIBRARY: One of the most attractive features of the new buildings is the library-room. It contains many valuable books on art and the art magazines and periodicals.

THE ANNE BREMER MEMORIAL LIBRARY: Through the generosity of Mr. Albert M. Bender an addition to the regular School library

has been founded, to be known as the Anne Bremer Memorial Library. It is now a reference collection of exceptional value.

LECTURES: A course of lectures given weekly throughout the year designed to acquaint the student with the growth and development of art from ancient to modern times. Certain phases of particular importance to intelligent understanding of contemporary art will be emphasized.

SCHOOL CALENDAR

CALENDAR FOR 1934-35: The first term opens Monday, August 20th, and closes Saturday, December 22, 1934. The second term opens Monday, January 7th, and closes Friday, May 17, 1935. Students are advised to enroll during the week previous to the opening day of each term.

The Summer Session of six weeks opens Monday, June 24th, and closes Friday, August 2, 1935.

The School closes for a few special holidays, to be announced.

SCHOLARSHIPS AND PRIZES

WILLIAMS SCHOLARSHIP: A yearly Scholarship in the School, founded by the late Dora Norton Williams as a memorial to her husband, Virgil Williams, will be awarded at the close of each regular session.

ANGUS GORDON BOGGS MEMORIAL SCHOLARSHIP: A yearly scholarship has been founded by Mrs. Angus Gordon Boggs as a memorial to her husband.

JUNIOR LEAGUE OF SAN FRANCISCO SCHOLARSHIP: A scholarship for the coming year is offered by the Junior League of San Francisco.

I. N. WALTER SCULPTURE PRIZE: From the income of a fund donated by Caroline Walter in memory of her husband, Isaac N. Walter, a cash prize will be awarded annually for the best student work done in sculpture during the Regular Session.

THE ANNE BREMER MEMORIAL FUND: In memory of the late Anne Bremer, distinguished California painter and former active member of the San Francisco Art Association, a fund of over twenty-five thousand dollars has been created by public subscription, the income from which will be used each year for the aid and encouragement of deserving students of the School. In conjunction with the donations from this fund, the School awards yearly, to students enrolled in the School, two full-year scholarships and three half-year scholarships.

HIGH SCHOOL SCHOLARSHIPS: An annual competition for three scholarships is offered by the School at the close of the second term, open to all high-school students of this state. Original work in either drawing, modeling, or design must be submitted not later than Monday, April 22, 1935. High schools will be sent further information in advance of this date.

MISCELLANEOUS

SOCIAL ACTIVITIES: The Art Association buildings offer splendid opportunities for the inauguration of interesting social activities on the part of the School and Association.

ART GALLERY: Adjoining the patio is the Art Gallery, where special exhibitions and lectures are held throughout the season.

CAFETERIA AND DINING-ROOM: A pleasant room adjoining the terrace and School grounds where simple luncheons are served at moderate prices.

STORE: For convenience of students the School maintains a store where supplies may be purchased.

The School reserves the right to select certain examples from the work of each student at any time during the year, for exhibition or for the permanent collection of the School.

SUMMER SESSION, 1935

A Summer Session of six weeks will be held as usual next summer, June 24 to August 2, 1935. The courses offered are particularly organized to give those who have only the vacation period free for individual work—teachers especially, as well as many regular

students of the School—the advantage of six weeks of intensive art study. Each summer, in addition to the fundamental instruction, special classes of exceptional interest are held. A catalogue of the Summer Session giving full detailed information is prepared in the spring and copies will be mailed on request.

COURSES OF STUDY

LIFE CLASSES: Drawing from life. Fundamental and progressive study of form and line. This course offers the foundation work necessary to many other branches. Models pose for both long and short periods, and particular attention is devoted to imaginative and memory drawing. As a knowledge of anatomy is so essential to good drawing of the human figure, all students working in the morning life and antique classes are advised to attend the lecture of one hour on anatomy, given on Thursday mornings.

Monday, Tuesday, Wednesday, Thursday, Friday, 9 to 12, and 1 to 4.

Night School: Monday, Wednesday, Friday, 7 to 10.

ELEMENTARY COURSE: For beginning students a carefully planned course of study has been prepared which will offer a wide range and variety of subject-matter and is designed to give them a broad foundation on which to build their future work. It includes antique, object and life-drawing, still-life painting, theory and practice of color, imaginative drawing and composition, decorative design, and such related subjects as perspective, anatomy, and mechanical drawing. All students must satisfactorily meet these elementary requirements before admission to advanced classes.

Monday, Tuesday, Wednesday, Thursday, Friday, 9 to 12, and 1 to 4.

Night School: Monday, Wednesday, Friday, 7 to 10.

SCULPTURE: The course in Sculpture comprises modeling from the human figure, and gives the student a thorough knowledge of form that will be helpful even if he should follow one of the other branches of art. Composition in groups and bas-relief. A special feature of the Sculpture course is cutting directly in stone, for which an outdoor studio is provided.

Monday, Tuesday, Wednesday, Thursday, Friday, 9 to 12. Studio fee \$2.00 per month.

MURAL DECORATION—FRESCO PAINTING: Fresco and other methods of working directly on the wall will be practised in the development of decorative problems and in composing architectural spaces, giving students a knowledge of the materials of the wall and their limitations. A certain amount of preliminary work from life is an essential preparation for this class.

Monday, Tuesday, Wednesday, Thursday, Friday, 1 to 4.

This class will meet one period a week, and be given a thorough grounding in the many phases of the craft, from the preparation of the plate to the final printing. SATURDAY CLASSES FOR CHILDREN

Important features of the School work are the Saturday Classes in art instruction to children. NIGHT SCHOOL

MONDAY, WEDNESDAY, FRIDAY, 7 TO 10

The Night School offers special opportunities to men and women who can study only at night, by providing a course of study that practically duplicates that of the Day School. In all classes, the instructors emphasize those essentials of imagination, line, proportion, construction, and color that must contribute equally to the making of pictures and mural paintings, to design, and to the many practical applications of art in the everyday world, usually called "Commercial Art."

The Department of Drawing and Painting includes a special class for beginners, where Elementary Drawing and Painting with the use of simple materials are taught.

Regular illustrated lectures on Anatomy, Art History, and Esthetic Appreciation are given by Mr. Macky and other artists. In the new buildings the Night Classes occupy large, well-lighted studios specially equipped for their needs. Students may enroll at any time.

Night School Tuition: \$7 per month; \$25 per semester.

Excepting the photographs of the building, the illustrations in this catalogue represent the work of students during the year 1933-1934.
